

# PAUS Worklift

## GT 16 I

- 2-joint construction (upper arm telescopic) on an industrial chassis
- electro-hydraulic precision control (proportional steering) for all movements
- four hydraulic supports, may be controlled separately
- electrical supports control (limit switch on the supports)
- safe basket guidance by transmitter-receiver-cylinders
- low grade of oscillation due to aluminium lifting arms with big cross section
- working basket out of aluminium

### Technical Data

Working height	16.0 m
Max. platform height	14.3 m
Max. lateral range of action	9.0 m
Basket load in whole working range	200 kg
Angular freedom	endless
Transport width	0.99 m
Transport height	1.90 m
Transport length	5.70 m
